

QUEEN'S PARK: ENERGY FUTURES

Tuesday July 20th, 19.00-21.00 (refreshments available from 18.30)

Queen's Park Court Resident's Hall, Ilbert St, W10

What will Queen's Park be like in 2025?

Queen's Park Low Carbon Zone are joined by Mark Elton, director at Energy Concious Design Architects who are behind the eco-retrofit of 88 Lothrop Street and several other eco-makovers in W10, local sustainability expert JP Wack and residents to discuss the energy issues facing Queen's Park and what can be done to tackle them.

Learn how environmentally friendly Queen's Park is now and share ideas about how we can make it a greener place to be.

Please RSVP to GoGreen@westminster.gov.uk, or just turn up on the day.

Event Programme

- 6.30 Doors open – refreshments available
- 7.00 Energy Matters
We all love watching telly and a nice hot bath but what are the consequences of our energy use from the Gulf Oil Spill to Climate Change and rising energy prices? How long can we continue this level of energy use?
15 min talk followed by discussion
- 7.20 Step by Step Guide to Carbon Footprints
What is a carbon footprint and how do you measure it? What is a neighbourhood carbon footprint? How green is Queen's Park?
5 min talk followed by discussion
- 7.30 Queen's Park Futures
How much greener could Queen's Park be by 2025? How green should we be?
20 min talk followed by discussion
- 8.00 What can I/you/we do to be greener?
Learn about the offers and support available from Westminster Council, energy companies and others. Share your ideas for ways to green Queens Park.
15 min talk followed by discussion
- 8.20 Opportunity to mingle over refreshments
- 9.00 Doors close - continue discussions in the local pub?
