

Jessel House
Decorations
(project AB109)

Important information

Works start on Monday 21 June 2021

The first stage of the works is to erect the scaffold on the top floor of the staircase. This will take approximately 2 days.

On Wednesday 23 June we will start to strip the paint from the walls in the communal area. The product we use is a non-hazardous water-based product that is non-toxic, low odour and non-flammable.

It will be applied to the walls, then protected by plastic sheeting and secured with a hard-wearing polypropylene board. After 4 hours the paint will be stripped and the product reapplied.

Please take care when in the communal areas and if you have any questions or concerns, contact Ahmed, United Living Resident Liaison Officer, on 07803 509 946.

We appreciate your patience and understanding while these works are carried out.
