## <u>Appendix – Bus Cuts Data</u>

**Figure 1.** Proportional change in boarding demand relative to P9 2019 for a) routes in Westminster proposed for withdrawal and b) all routes in Westminster. Data were provided by TfL for all stop-to-stop bus trips where the boarding stop was within the WCC authority area, and the alighting stop is anywhere within or outside of the WCC area.

**Figure 2.** Percentage of bus users with a freedom pass boarding in Westminster on routes proposed for withdrawal (P2 2022). For comparison, the red line indicates the average proportion of freedom pass users across all routes in Westminster. Freedom pass users are more likely to be excluded from travel by extended journeys and broken journey links. Data were provided by TfL for all stop-to-stop bus trips where the boarding stop was within the WCC authority area, and the alighting stop is anywhere within or outside of the WCC area.

**Table 1.** Proportional change in boarding demand between 2019 P9 and 2022 P2 for all routes in Westminster. Routes are classified by proposal type and ordered by % change in demand, from most positive to most negative. Note that some routes proposed for withdrawal have shown an increase in passenger numbers and are not necessarily those with the greatest reductions in demand. Data were provided by TfL for all stop-to-stop bus trips where the boarding stop was within the WCC authority area, and the alighting stop is anywhere within or outside of the WCC area.
