- Develop your CV and receive ongoing job application support
- Build your interview and employability skills
- Understand and prepare for new recruitment practices
- Meet a variety of employers who will give an insight into their recruitment processes
- Develop your professional social media brand
- Receive up-to-date information on local employment opportunities
- Gain access to a personal mentor
- Secure guaranteed interviews upon course completion

In addition, we'll also help you design your own post-programme employment plan. This includes up to six months' specialist support from members of The Launch Group's recruitment and training team.
