20/30785/ENBU45	█ Denman StreetLondonW1D █	Busker complaint	01/10/2020 14:36	Location: Piccadilly Circus - although we understand and welcome busking, in general the singers/players have been really loud and repetitive, recently, there's been a singer for weeks now, playing from 1:30pm/2pm until 9pm every day, singing the same songs every hour ( I can list them, we know them by heart), over and over again, which we can clearly hear - as residents working from home, you can understand this has become a nuisance. the following rules are not followed I'm afraid: ! Sound from any performance shall not be heard by persons in nearby premises! ! If you use an amplifier this should never be powered with any external power sources, for example extra batterypacks or generators. ! You should have a full and varied repertoire that avoids repeating sounds, songs, or music. ! You should be aware that noise can be generated by the audience! ! A performance should not be longer than 40 minutes and there should be a 20 minute break before the next buskeror street entertainer performs Notes: information shared before - Piccadilly Circus, busker singer, every day 1:30pm/2pm non stop until 9pm, loud, even with our windows close, we hear him very clearly, so loud and repetitive
