

Churchill Ward Profile

2018

For further information about the Ward Profiles please contact the Evaluation and Performance Team within Westminster's Policy, Performance and Communications directorate: wardprofiles@westminster.gov.uk

About Westminster's Ward Profiles

The Ward Profiles seek to situate the unique local characteristics, as well as opportunities and challenges facing, each ward in the borough of Westminster. By harnessing the latest data available detailing a wide variety of urban issues, local pictures of each ward are drawn. To offer further context, local area (LSOA), borough and in some instances city comparisons are offered.

Given the breadth of data sets included in this document, the dates of the information used vary significantly, ranging from 2010 to November 2017.

Ward Features

Churchill Ward is a vibrant and diverse community in the south of Westminster borough.

Alongside white stucco villas designed by Thomas Cubitt, Churchill is also home to the expansive Churchill Gardens Estate which was a pioneering design of mixed development and is now a conservation area.

In 2011, English was being spoken in 67% of households in Churchill, which is equal to the Westminster average of 67%. 56% of the residents were born inside of the UK. Of the residents who were born outside of the UK, 32% have lived in the UK for 5 years or less according to the 2017 City Survey. Of those registered on the electoral role, 15% of Churchill are from the EU and 3% are from Commonwealth nations. Portugal is the most prevalent country of origin outside Britain according to the 2017 electoral roll.

Ethnic Diversity: Simpson's Diversity Score, ONS 2011

3.0

8.5

Simpson's Diversity Index (SDI) scores the ethnic diversity of a ward's population. The minimum value is 1 which indicates the population is made up of one ethnic group, whilst the maximum value is the total number of ethnic categories included (18 in the 2011 Census). The SDI of Churchill was 4.8, Westminster's was 4.9 and London's 2.7.

Deprivation

Westminster's local areas are among both the most and least deprived in London according to the 2015 Index of Multiple Deprivation (IMD). This index articulates deprivation of households as an accumulation of seven discrete dimensions: Living Environment, Barriers to Housing & Services, Crime and Disorder, Income, Employment, Health & Disability and Education and Skills Training.

Churchill is within the 10-20% most deprived in the UK for the average overall rank. Displayed on the map below is the ranking of local areas (LSOA's) within Churchill for the overall deprivation score.

LSOA	Decile
E01004668	30-40% most deprived in the UK
E01004666	20-30% most deprived in the UK
E01004667	20-30% most deprived in the UK

Less Deprived

In November of 2016, there were 1,125 benefit claimants of working age in Churchill (15.17% of the ward's working age population), 80% of these claimed Out-Of-Work Benefits.

Out-Of-Work Benefits Claimed, 2016 NOMIS & DWP

There are two main types of benefits which can be claimed by those out of work. Job Seekers Allowance (JSA) is claimed by residents unemployed and actively seeking work, of which there were 160. The JSA rate in Churchill was 2.16%, greater than that of Westminster's average 0.55%. Employment and Support Allowance (ESA) and Incapacity Benefit (IB), is claimed by residents with physical or mental health challenges. There were 660 ESA/IB claimants in Churchill with a rate of 8.9%, greater to that of Westminster's average 2.65%.

Income Deprivation Affecting Children Index, DCLG 2015

According to the 2011 Census, 33% of families were composed of lone parents with dependent children in Churchill. 33% of children in the ward were receiving free school meals in 2017, an indicator of the proportion of families financially stressed.

Income Deprivation Affecting Children is a supplementary index within the Income Deprivation domain of the 2015 IMD measure. The adjacent map demonstrates the proportion of children in families impacted by income deprivation within local areas of Westminster's wards.

At the end of 2017, there were 248 Troubled Families in Churchill (7.8% of Westminster's Troubled Families). Troubled Families are identified based on whether they have two or more complex needs, which fall within 6 criteria: crime and anti-social behaviour, poor school attendance, children in need, worklessness or financial insecurity, domestic violence, and parents or children which suffer from health problems.

Percentage of Children Receiving Free School Meals, 2017

More Deprived

Less Deprived

Vulnerable Older People

20% of Churchill are 65 and over, greater than Westminster's average of 18%. In 2011, 26% of this demographic group lived alone, which is greater than the Westminster's average of 24%. Persons aged 85 and older make up 2% of the population in the ward.

Pension Credit is an income-related benefit made up of 2 parts - Guarantee Credit (tops up your weekly income) and Savings Credit (extra payment for people who saved some money towards their retirement). The total number of credits claimed in 2016 were 4,245, which is a 2% drop in pension credit claims in 2015.

In November 2017, there were 174 older people supported by social care services from Westminster City Council, which accounts for 12% of older people in the ward and 6% of the total over 65 social care provided by Westminster City Council.

An estimate of the proportion of persons 65 and over in Churchill likely to be excluded was calculated based on income deprivation, mobility, household and neighbourhood ties, as well as health and safety in local areas (LSOA's). Westminster's local areas were ranked according to social exclusion of older people against others in London, Churchill falls within the 30-40% least excluded in London. Churchill is ranked within the worst 10-20% in London for Income Deprivation among older persons.

Churchill contained 5,266 residential properties in 2017, which accounted for 4% of Westminster's housing stock at the time. According to the 2011 census 23% of households were rented, 24% were owned and 50% were socially rented. In 2017, City West Homes managed 2,414 properties in the ward, of which 54% are tenants and 46% are leaseholders.

In 2017, the median property price in Churchill was £705,000 which is less than the median price in Westminster by 34%.

According to Council Tax documentation in 2017, 99 properties were listed as second homes, which represent 2% of households in Churchill. This is less than the average number of second homes owned in the average Westminster ward (184). The 2011 census found there were 994 residents in this ward that had a second home elsewhere in the UK or abroad.

Net Residential Completions by Year, WCC 2017

Net Residential Completions refers to the net change in housing units built. Over the past 10 years, 697 net units were built in Churchill. This represents 8.58% of the total net change in Westminster. Due to numerous circumstances such as eligible land, the opportunity for residential development across wards varies significantly.

Median Property Price, Land Registry 2017

£320,000

£4,000,000

The 2017 City Survey found 6% of Churchill's residents reported they were struggling financially, whilst Westminster average was 5%. An area's affordability can be estimated by dividing the median house price by the median household income. This measure indicated Churchill's residents would have to pay 21.3 times their annual salary to afford owning a home in the ward.

Accessibility to public transport is measured based on the walking time to a transport network and the service availability. Churchill's integration into the public transport network was found to be very good. An Experimental model of data from 2015 estimated that the combined day and evening population (residents at home, working population and visitors) of Churchill was 16,000, which is a 40% increase in population. The greatest proportion of residents in Churchill travelled to work by underground metro light rail tram in 2011. According to the 2017 City Survey, residents would like to travel even more by public transport.

Resident's Mode of Travel to Work, ONS 2011

Public Transport Accessibility in Local Areas, TfL 2014

Road Casualties in Local Areas, Department for Transportation 2014

Data presented is for personal injury road traffic collisions occurring on the public highway, and reported to the police, in accordance with the Stats 19 national reporting system. Road Casualties include all Slight, Serious and Fatal collisions.

According to a 2013 study, 64% of homes in Churchill had good access to local parks, greater than the borough's average of 60%. Respondents of the 2017 City Survey suggest that 59% of Churchill used open spaces and public parks in the last three months, 66% of which were satisfied with them, greater than Westminster's average of 54%.

Over the last 10 years, 10 green walls and roof planning applications have been received in Churchill. The number of planning applications received is indicative of local demand for green infrastructure but not all applications are realised.

Households with Good Access to Local Parks, GiGL 2013

Particulate Matter (PM) is a form of air pollution, a mixture of solid particles and liquid droplets in the air, most frequently emitted by road vehicles and measured in two densities, PM10 and PM2.5. Greater mortality risk, particularly from cardiovascular causes, is among the adverse health effects caused by exposure to PM. Nitrogen dioxide (NO2) is another gas assessed to gauge air quality, approximately 50% of its concentration is emitted by road vehicles.

Churchill average measure of nitrogen dioxide in 2013 was 48.8µg/m3, greater than the World Health Organization's (WHO) recommended limit of 40µg/m3. Westminster's average NO2 concentration was 50.2µg/m3, above London's average of 30.6µg/m3.

Electric Vehicle Charging Points & Bays, WCC 2017

There were 3 electric vehicle charging points and bays in Churchill in 2017, less than Westminster's ward average of 9. Of those surveyed in 2017 City Survey in Churchill 34% perceived littering to be a fairly or very big problem in their local area.

Proportion of Residents who Perceive Littering as a Problem, City Survey 2017
