

Document title: WCC response to question Q3 in “Appointed Inspectors Note 1 to Council Westminster Local Plan” (code INSP1)

Document code: WCC\_LETTER\_002

This document has been produced in order to respond to question Q3 in the “Appointed Inspectors Note 1 to Council Westminster Local Plan” (code INSP1):

*“Q3 To that end, we ask the Council to correlate the useful end-notes to the Reg 19 Consultation Statement CORE\_010 with the related Rep Nos in CORE\_011”.*

When producing this document, a number of typos spotted in CORE\_010 have been corrected:

- The representor that appears in CORE\_010 as Neil Johnston has been replaced by Paddington Development Trust (Neil Johnston effectively submitted representations but on behalf of the Paddington Development Trust).
- The representor that appears in CORE\_010 as William Differ has been replaced by Delfont Mackintosh Theatres (William Differ effectively submitted representations but on behalf of Delfont Mackintosh Theatres)

When producing this document, a number of typos have also been spotted in CORE\_011:

- According to the main table with representors names, the representations from Andy Beverley have been logged under code 157. However, the individual record that shows the full representation is marked with code 158 (page 1574 of document CORE\_011).
- According to the main table with representors names, the representations from Covent Garden Community Association have been logged under code 158. However, the individual record that shows the full representation is marked with code 159 (page 1579 of document CORE\_011).
- According to the main table with representors names, the representations from the Palace of Westminster Restoration and Renewal Programme have been logged under code 159. However, the individual record that shows the full representation is marked with code 160 (page 1583 of document CORE\_011).

For the purposes of this document, we have used the codes as set out in the table to the front of CORE\_011.
