Proposal : T1 - Robinia - cut back from building to give 1m clearance from roof. Tree is encroaching on the building so this is routine maintenance.
T2 - Birch - fell to ground level. The tree has such established ivy growth that it has been suffocated. There is only a tiny amount of foliage at the tips. Tree is mature and coming to the end of life. Client would like to replace with another Birch.
T3 - Birch - fell to ground level.
T4 - Laurel - reduce by up to 50% to ensure that the tree doesn't fail. It is growing at an acute angle so works are to reduce end weight and try to ensure longevity of the tree.
