Subject: Supporting the FitzWest Neighbourhood Plan
Date: 30 July 2020 17:38:00

I am writing to express my support for the FitzWest Neighbourhood Plan.

I live in the area and also in a freelance capacity sometimes work here as well.

Particularly after the joys of the reduction in traffic during lockdown, I am especially keen to support policies that improve air quality and the environment. We are so short of green space that I welcome preserving any that we have, but also imaginatively looking for ways to increase open space eg play streets?, street closures?

I also feel strongly that we must aim for mixed use and affordable housing and be aware of the perils of more luxury flats that stand empty and do nothing for the good of the community.

I also support policies that actively encourage small, independent businesses.

Thanks

Kind Regards

Julia Haythorn
