

Document title: Addendum I – Post-submission Schedule of Changes to the Policies Map (including amendments agreed through Statements of Common Ground and the council’s response to the Inspector’s MIQs) (September 2020)

Document code: CORE\_026\_V2

## **Addendum I – Post-submission Schedule of Changes to the Policies Map (September 2020)**

### **1 Introduction**

The “Schedule of Changes to the Policies Map” (November 2019) summarises the proposed changes to Westminster’s spatial designations and Policies Map for the full revision to Westminster’s City Plan (document reference CORE\_005). The statement accompanied the Regulation 19 Publication Draft City Plan (2019) and its associated Regulation 19 Draft Policies Map (document reference CORE\_003) in its submission to the Secretary of State in November 2019. A “Submission Policies Map” (document reference CORE\_004) was also submitted to account for further proposed Modifications at submission stage.

Throughout the Examination process, the council is proposing a series of Modifications to the Regulation 19 Publication Draft City Plan (2019) are made which are being logged in a “Schedule of Modifications”. Some proposed Modifications affect spatial designations: this document has therefore been produced to keep a record of all the proposed changes to spatial designations and the Policies Map that the council believes need to be made alongside any proposed Modifications.

All background information about a specific spatial designation has been published in the “Schedule of Changes to the Policies Map” (November 2019), which remains the core document explaining the main changes to the Policies Map.

This document only discusses changes to spatial designations that are being proposed through the Examination process. Each time the council updates this schedule, an updated Draft Policies Map is also being published.

## 2 Overview of all post-submission changes to Westminster’s spatial designations and Policies Map

This section presents an overview of all the proposed post-submission changes to spatial designations and the Policies Map. Modifications proposed at post-submission stage have ‘PS’ at the start of their reference.

**Figure 1 Proposed post-submission changes to Westminster’s spatial designations and Policies Map**

Spatial designation	In City Plan (November 2016) Policies Map	In City Plan 2019-2040 Submission (November 2019) Policies Map	Change between the November 2016 and November 2019 Policies Map	Proposed post-submission modification
			Other	
Proposals sites / Key Development Sites	YES	YES	CHANGE <i>See section 3.9 and Figures 43 to 53 of the Schedule of Changes to the Policies Map (November 2019)</i>	<b>PS/OTH/001</b> As explained in the document “Updated Schedule of Modifications (including amendments agreed through Statements of Common Ground) (March 2020)”(document reference CORE_025), the council has proposed that Appendix 1 of the submitted City Plan 2019-2040 is replaced (see modification PS/A1/01). The council has proposed not to publish the list of “Key Development Sites” and instead replace it with the “Housing Trajectory”. Accordingly, the council considers that the “Key Development Sites” should not be shown in the Policies Map.
The Central Activities Zone	YES	YES	CHANGE <i>See section 3.1 and Figure 2 of Changes to the Policies Map (November 2019)</i>	<b>PS/S/07</b> As explained in the document “Updated Schedule of Modifications (including amendments agreed through Statements of Common Ground)

				(June 2020)”(document reference CORE_025_V3), the council has proposed to amend the CAZ boundary as shown in response to question 9, in Matter 3 (WCC_MIQ_003).
<b>Rapid Inundation Zone</b>	<b>YES</b>	<b>YES</b>	<b>NO CHANGE</b>	<b>PS/OTH/002</b>  <i>Changes to the extent of the rapid inundation zone following updated evidence from consultants.</i>
