City of Westminster

About Westminster's Ward Profiles

The Ward Profiles seek to situate the unique local characteristics, as well as opportunities and challenges facing, each ward in the borough of Westminster. By harnessing the latest data available detailing a wide variety of urban issues, local pictures of each ward are drawn. To offer further context, local area (LSOA), borough and in some instances city comparisons are offered.

Given the breadth of data sets included in this document, the dates of the information used vary significantly, ranging from 2010 to November 2017.

Ward Features

Regent's Park ward is largely made up of the park it is named after, one of the Royal Parks of London which lies partly in the London Borough of Camden.

The Outer Circle of the park is lined with elegant white stucco terraces of houses and within it sits the London Zoo and the Lords Cricket Ground.

Diversity

In 2011, English was being spoken in 62% of households in Regent's Park, which is equal to the Westminster average of 62%. 40% of the residents were born inside of the UK. Of the residents who were born outside of the UK, 43% have lived in the UK for 5 years or less according to the 2017 City Survey. Of those registered on the electoral role, 15% of Regent's Park are from the EU and 8% are from Commonwealth nations. India is the most prevalent country of origin outside Britain according to the 2017 electoratal roll.

## Ethnic Diversity: Simpson's Diversity Score, ONS 2011
3.0 — 8.5

Simpson's Diversity Index (SDI) scores the ethnic diversity of a ward's population. The minimum value is 1 which indicates the population is made up of one ethnic group, whilst the maximum value is the total number of ethnic categories included (18 in the 2011 Census). The SDI of Regent's Park was 5.7, Westminster's was 4.9 and London's 2.7.

Deprivation

Regent's Park

Westminster's local areas are among both the most and least deprived in London according to the 2015 Index of Multiple Deprivation (IMD). This index articulates deprivation of households as an accumulation of seven discrete dimensions: Living Environment, Barriers to Housing & Services, Crime and Disorder, Income, Employment, Health & Disability and Education and Skills Training.

Regent's Park is within the 40-50% most deprived in the UK for the average overall rank. Displayed on the map below is the ranking of local areas (LSOA's) within Regent's Park for the overall deprivation score.

| LSOA	Decile
E01004727	30-40% least deprived in the UK
E01004730	30-40% least deprived in the UK
E01004726	40-50% least deprived in the UK

Benefit Claimants

In November of 2016, there were 495 benefit claimants of working age in Regent's Park (5.61% of the ward's working age population), 75% of these claimed Out-Of-Work Benefits.

Out-Of-Work Benefits Claimed, 2016 NOMIS & DWP

Total Claims
370

There are two main types of benefits which can be claimed by those out of work. Job Seekers Allowance (JSA) is claimed by residents unemployed and actively seeking work, of which there were 50. The JSA rate in Regent's Park was 0.57%, greater than that of Westminster's average 0.55%. Employment and Support Allowance (ESA) and Incapacity Benefit (IB), is claimed by residents with physical or mental health challenges. There were 290 ESA/IB claimants in Regent's Park with a rate of 3.28%, greater to that of Westminster's average 2.65%.

### Income Deprivation Affecting Children Index, DCLG 2015
According to the 2011 Census, 19% of families were composed of lone parents with dependent children in Regent's Park. 21% of children in the ward were receiving free school meals in 2017, an indicator of the proportion of families financially stressed. Income Deprivation Affecting Children is a supplementary index within the Income Deprivation domain of the 2015 IMD measure. The adjacent map demonstrates the proportion of children in families impacted by income deprivation within local areas of Westminster's wards.

At the end of 2017, there were 91 Troubled Families in Regent's Park (2.9% of Westminster's Troubled Families). Troubled Families are identified based on whether they have two or more complex needs, which fall within 6 criteria: crime and anti-social behaviour, poor school attendance, children in need, worklessness or financial insecurity, domestic violence, and parents or children which suffer from health problems.

Percentage of Children Receiving Free School Meals, 2017

More Deprived   Less Deprived
Vulnerable Older People

25% of Regent's Park are 65 and over, greater than Westminster's average of 18%. In 2011, 25% of this demographic group lived alone, which is greater than the Westminster's average of 24%. Persons aged 85 and older make up 3% of the population in the ward.

Pension Credit is an income-related benefit made up of 2 parts - Guarantee Credit (tops up your weekly income) and Savings Credit (extra payment for people who saved some money towards their retirement). The total number of credits claimed in 2016 were 5,805, which is a 19% drop in pension credit claims in 2015.
In November 2017, there were 193 older people supported by social care services from Westminster City Council, which accounts for 8% of older people in the ward and 7% of the total over 65 social care provided by Westminster City Council.

An estimate of the proportion of persons 65 and over in Regent's Park likely to be excluded was calculated based on income deprivation, mobility, household and neighbourhood ties, as well as health and safety in local areas (LSOA's). Westminster's local areas were ranked according to social exclusion of older people against others in London, Regent's Park falls within the 30-40% least excluded in London. Regent's Park is ranked within the worst 40-50% in London for Income Deprivation among older persons.

City of Westminster

Regent's Park

Regent's Park contained 6,833 residential properties in 2017, which accounted for 5% of Westminster's housing stock at the time. According to the 2011 census 39% of households were rented, 38% were owned and 19% were socially rented. In 2017, City West Homes managed 1,039 properties in the ward, of which 50% are tenants and 50% are leaseholders.

In 2017, the median property price in Regent's Park was £985,000 which is less than the median price in Westminster by 8%.
According to Council Tax documentation in 2017, 269 properties were listed as second homes, which represent 4% of households in Regent's Park. This is greater than the average number of second homes owned in the average Westminster ward (184). The 2011 census found there were 1,888 residents in this ward that had a second home elsewhere in the UK or abroad.

### Median Property Price, Land Registry 2017

£320,000   £4,000,000

The 2017 City Survey found 2% of Regent's Park's residents reported they were struggling financially, whilst Westminster average was 5%. An area's affordability can be estimated by dividing the median house price by the median household income. This measure indicated Regent's Park's residents would have to pay 21.9 times their annual salary to afford owning a home in the ward.

Housing benefits are claimed by residents both in and out of work, who earn too little income to afford housing. In Regent's Park there are 905 residents who claim housing benefits, 4% of the total number of housi...

Net Residential Completions by Year, WCC 2017

Net Residential Completions refers to the net change in housing units built. Over the past 10 years, 52 net units were built in Regent's Park. This represents 0.64% of the total net change in Westminster. Due to numerous circumstances such as eligible land, the opportunity for residential development across wards varies significantly.

Accessibility to public transport is measured based on the walking time to a transport network and the service availability. Regent's Park's integration into the public transport network was found to be satisfactory. An Experimental model of data from 2015 estimated that the combined day and evening population (residents at home, working population and visitors) of Regent's Park was 29,600, which is a 120% increase in population. The greatest proportion of residents in Regent's Park travelled to work by underground metro light rail tram in 2011. According to the 2017 City Survey, residents would like to travel even more by public transport.

Particulate Matter (PM) is a form of air pollution, a mixture of solid particles and liquid droplets in the air, most frequently emitted by road vehicles and measured in two densities, PM10 and PM2.5. Greater mortality risk, particularly from cardiovascular causes, is among the averse health effects caused by exposure to PM. Nitrogen dioxide (NO2) is another gas assessed to gauge air quality, approximately 50% of its concentration is emitted by road vehicles.
Regent's Park average measure of nitrogen dioxide in 2013 was 43.1μg/m3, greater than the World Health Organization's (WHO) recommended limit of 40μg/m3. Westminster's average NO2 concentration was 50.2μg/m3, above London's average of 30.6μg/m3.

Regent's Park ⌄

100% of residents felt safe in Regent's Park and 94% felt safe after dark according to the 2017 City Survey. 20% felt that crime in their neighbourhood impacted their quality of life, this is greater than the average value for Westminster (19%).

Crime rates in Westminster's wards are influenced by the influx of visitors to the borough. Between Jul 2016 - Jul 2017, 1,249 crimes were reported in Regent's Park, equating to a crime rate of 12 per 100 residents. This is much less than the average rate in Westminster (29 per 100). Crime levels in the year ending in Jul 2017 have increased by 26% upon the previous year, whilst Westminster has seen an overall growth of 13%. According to the 2017 City Survey, 22% of the residents in Regent's Park perceived anti-social behaviour to be a problem in their area.

The London Fire Brigade responded to 663 incidents in Regent's Park, 5% of which were primary fires (harm people or cause damage to property) and 6% of which were secondary fires (less threatening) in 2016.
