## **2. Qualification for a permit**

---

- Your sole or main home must be in a controlled parking zone (**excluding residents of Crown or Royal Parks property**) in the City of Westminster.
- All documents must be at the same Westminster address.
- You must be the keeper of a vehicle that is solely driven by you and kept in Westminster.
- You can demonstrate the above by providing the proofs requested by the Council with your application form.
- We will not issue cover for vehicles that are not insured in Westminster and kept here.
- If you have three or more unpaid Penalty Charge Notices at Order for Recovery stage we reserve the right not to issue a permit to you.
- Only one permit will be issued per applicant.

## **3. Terms and conditions**

---

1. A permit will be issued according to the parking zone you live in.
2. The Council cannot guarantee a parking space will always be available to you.
3. It is your responsibility to ensure that your vehicle is legally parked at all times.
4. You must ensure that your permit is valid at all times and displayed on your windscreen. As motorcycles are issued with electronic resident permits, there is no need for a physical, paper resident permit to be displayed on a motorcycle.
5. Your resident permit entitles you to park in "Resident Permit Holders Only" bays in the zone for which the permit is issued. It also entitles you to park in paid for parking bays in that zone without payment for the first and last hours of controls. Motorcycles can additionally park in motorcycle bays in all zones in Westminster.

6. You **must not** park in suspended parking bays. This will result in enforcement action being taken. Where possible we will try to issue a warning on street in advance but in emergencies this may not be possible. Please do not leave your vehicle without checking it regularly, especially at the start of controlled hours each day at 8.30am. This is particularly important if you park in paid for parking bays for the first hour of each day. No advanced warning is given on these bays.
7. The on-street resident permit is not valid on private housing estates, including council estates.
8. Your vehicle must be able to fit within the markings of the parking place and be :
  - A passenger vehicle that does not exceed 6 metres in length and can carry no more than 13 people including the driver; or
  - A goods carrying vehicle that is no more than 2.44 metres (8ft) high; or
  - A motorcycle; or
  - An invalid carriage
9. You cannot park trailers or caravans, whether they are linked up to a vehicle displaying a permit, or standing alone.
10. Your vehicle must be roadworthy. Where a vehicle is considered as unroadworthy by the council the permit will be withdrawn without refund and enforcement action taken. Any cost incurred by the council will be passed on to the keeper of the vehicle.
11. On occasion you may need to use a courtesy vehicle or hire/lease vehicle because your own is off the road. The Council can give temporary cover not exceeding 14 days at a time. Permit holders should call 020 7823 4567 with their current permit reference number and the details of the replacement vehicle. A virtual Temporary Permit will be issued. There is a £10 charge for each temporary permit. A temporary permit cannot be reissued unless a further period of 14 days has elapsed.

## 4. Special Vehicle types

### Eco-vehicles

You may qualify for the 100% discount on the permit if your vehicle is classified within the following eco groups:

- **Electric** – solely powered by electricity when in normal use and produces no emissions.
- **Gas** – gaseous fuels such as LPG, CNG, and/or hydrogen.
- **Hybrid** – a parallel system in which a petrol, diesel or gas engine provides the main power to the vehicle with an electric motor assisting when needed.
- **Fuel cell** – a static device that converts the chemical energy in a natural gas into electricity and hot water through an electrochemical process.

If you are applying for a first time eco permit you must be able to prove that your vehicle qualifies as an eco-vehicle. Please see the 'Proof of Eco Qualification' section.

If you have an eco-vehicle you can apply online or via post.

Non eco-vehicles cannot be added to a current eco-Vehicle Permit. A new application should be made for a standard resident permit and the eco-Vehicle should be added to this permit.

### Motorcycles

The resident permit scheme differs slightly for motorcycles. The main differences to the standard scheme for cars are as follows:

- The charge for a resident permit for a motorcycle only is £52 per annum regardless of engine size.
- Resident permits for motorcycles are 'virtual' electronic permits administered through the City Council's Pay-to-Park scheme rather than physical, paper permits that need to be displayed on the vehicle.
- As well as allowing the motorcycle to park in resident bays in the permit holder's zone of residence, a resident permit for a motorcycle also allows the vehicle to be parked in any motorcycle bay throughout the borough without further payment.
- A motorcycle can be added to an existing permit for a car, although this would incur a standard £10 administration fee.

Please Note: Cars cannot be added to a motorcycle permit.

## Foreign vehicles

We have special rules for vehicles registered abroad. First time applications must be made by post.

The vehicle must be kept in Westminster, which must be the main address. We will issue a permit providing 6 weeks of temporary cover to enable the applicant to start registering the vehicle. During the temporary cover period (1st month), the applicant must be able to provide evidence that the vehicle registration process has been started otherwise extensions to their permit will not be allowed.

For further information please visit our website [www.westminster.gov.uk/parking](http://www.westminster.gov.uk/parking)

## 5. Annual permit charges

Engine above 1200cc	<b>£145</b>
Engine 1200cc and below	<b>£103</b>
Eco-Vehicle: Electric, gas, hybrid, fuel cell	<b>Free</b>
Motorcycle	<b>£52</b>

The full annual charge is payable if you:

- cannot show us that your vehicle qualifies for the 100% discount immediately (the highest charge applies).

### Private and company- owned vehicles

- The vehicle registration document (V5C) showing the qualification as an eco-vehicle under the section for 'fuel classification'. In cases where a vehicle was bought as new during or after 2001 the V5C should automatically show this information. For vehicles registered before 2001 that have undergone conversion and the DVLA have been notified, it will appear on the V5C. Where the classification

is not shown on the V5C we will require documentation confirming that the vehicle was converted by an approved supplier.

#### **Hired/leased vehicles**

- We will accept the V5C, letter from an authorized conversion agent or hire agreement showing that a vehicle meets the eco-vehicle classification.

#### **Fleet-leased vehicles**
